Turrumurra High School
Student and Parent Portal

Title

First Name

Last Name

Email

Password

Confirm Password

1. You must use a valid email address to create your username.
2. Choose a password.

NOTE: If you have already registered for a portal account and would like to get access to the mobile app, please start from page 3.

Once your account is created you will then need to login using the username and password you have just created.

On the next page you will be prompted to enter an Access Key. This access key will be posted to your home address. If you have not received it, please ensure you have a registered email address with the school. Please be mindful this key is case-sensitive and it is advised that you copy/paste it directly into the field below (even a copied space will result in an error).

Note: If you have any issues with your access key, please contact Turramurra High School's admin office.

The screenshot displays the 'My Access' interface for Turramurra High School. At the top, there is a blue header with the 'SENTRYAL' logo on the left, 'My Access Turramurra High School' in the center, and a 'Notifications' bell icon on the right. A search bar is located in the top left corner of the main content area. On the left side, there is a vertical navigation menu with four items: 'My Details', 'My Access' (which is highlighted with a blue bar), 'Help & Information', and 'Logout'. The main content area is divided into three sections. The top section contains the text: 'You have no Access Key. You can add new access key using the button below.' Below this text is a blue button labeled '+ Add New Access Key'. The middle section contains a white box with the text: 'Please enter your access key below exactly as it appears in the communications you received from the school. Access keys are case sensitive and must be typed exactly as they appear. If you have not received an access key, please contact Turramurra High School to request one.' Below this text is a form labeled 'Family/Student Key' with a text input field and a green 'Add Key' button. The bottom section is an orange box with the text: 'Treat access keys as confidentiality the same as you would a pin or password. If you suspect someone else may have obtained your access key, notify Turramurra High School as soon as possible to have access using it blocked.'

Successfully entering the Access Key will present you with a new page similar to the display below. If you have other children in attendance at THS, they will be displayed accordingly.

Sentral also offers a mobile app, Sentral for Parents which is available for both Android (in the Play Store) and iOS (Apple - in the App Store) which allows you to receive push notifications.

Push notifications are alerts and/or messages sent directly to your device at the time they are created allowing you to get up-to-date information regarding your child and school events.

Clicking on the child's name will display information concerning that child.

After downloading the mobile app you will need to link your parent portal account to your app.

1. Click Portal Version 2, a new page will load as is displayed below.
2. Click on “My Access”. This will load another page where you can check your current Family Access

3. Click on "Click to Configure App Access"
4. Click on "I need a new App Account"
5. A message will pop up that a verification email is sent to your email address. You will need to check your email and click the link that was sent. After you have done this, your parent portal account will be linked to the mobile app. You can then login to the app using the same email address and password as you used to register your account.
