

Forget a Wireless Network in WINDOWS 10

1. Select the wireless on the bottom right, and then click on **“Network settings”**.

2. Click on **“Manage Wi-Fi settings”**.

3. Scroll down under **“Manage known networks”** find **“detnsw”** and then click **“forget”**.

[Wi-Fi Sense needs permission to use your Facebook account](#)

Give and get Internet access without telling each other your shared passwords. You'll get connected to Wi-Fi networks your contacts share, and they'll get connected to networks you share.

Paid Wi-Fi services

[Sign in with your Microsoft account to use Wi-Fi Services](#)

Get online when you're on the go by buying Wi-Fi. When turned on, Windows will temporarily connect to open hotspots that aren't secure to see if paid Wi-Fi is available.

On

Manage known networks
